> Read all instructions before beginning! <

NOTE:
Sand is not included. You can purchase it separately from most home improvement and hardware stores, or have it delivered from many local garden centers/landscape supply companies. You will need approximately 750 pounds of sand to fill the sandbox 6 inches deep.
If you want the sandbox to be deeper, assemble the sandbox and then mark the ground following the INTERIOR edges of the box. Move the sandbox aside and excavate within the marked area to the depth that you desire. Place the sandbox frame around the excavated area, and fill with the amount of sand desired.
It’s helpful to use landscape fabric beneath the sand/sandbox (also found at hardware and home improvement stores), particularly if you excavate a hole to make the sandbox deeper.
WARNING! FAILURE TO FOLLOW THESE WARNINGS AND THE INSTRUCTIONS MAY RESULT IN SERIOUS INJURY OR DEATH. NEVER LEAVE CHILD UNATTENDED.

• READ ALL INSTRUCTIONS before use of this product.
• Keep instructions for future use.
• Use only the parts and hardware provided by Badger Basket.
• Do not use the product if it is damaged, broken, cracked, or missing parts.
• Hardware may include small parts. Choking Hazard!
• Keep unassembled parts out of the reach of small children.
• No product is a replacement for adult supervision.
• ALWAYS keep your child in view while in the sandbox.
• Cover panels/benches should only be unfolded and folded by an adult.
• Use caution when folding and unfolding. Be aware of children around the sandbox when the panels are in motion to prevent injuries.
• Never attempt to fold the benches and cover the sandbox if there are children or animals inside.
• Children should always wash their hands thoroughly with soap and water after playing in the sandbox, especially before handling food.
• The combined weight of all the people sitting on each bench should not exceed 200 pounds (91 kg) per bench.
• DO NOT pull on, hang on, climb on, attach anything to or hang anything from the canopy or the canopy frame and posts.
• This product is heat treated and stained and designed to be outdoors. No further treatment of the wood is required before use. Any additional surface treatment is optional. Consult with your local home improvement store if desired.
• Do not install the sandbox on top of bricks, pavers, or concrete because this can interfere with drainage and damage the product.
